**ROGERS COUNTY FAIR
MARKET AND BREEDING HOG NOMINATION FORM
(Please Print Legibly)**

NAME: _____

ADDRESS: _____ ZIP: _____

PHONE: _____ E-MAIL: _____

4-H CLUB/CHAPTER: _____

4-H LEADER/FFA INSTRUCTOR: _____ PHONE #: _____

ONE ANIMAL PER FORM

Tag No: _____ Sex: _____
(Must be an 840 or Tulsa State Fair Tag)

Breed: _____ (hogs will show in the breed indicated)

Ear Notch #'s: Right Ear: _____ Left Ear: _____

Premise ID #: _____

Please Draw In Ear Notches

Mail form to:

Duane Stout
21555 E. 560 Road
Inola, OK 74036
Email: rcfswinedept@gmail.com

Form Due Date: June 15, 2021

Exhibitor's Signature

Parent Signature

4-H Educator/Ag Instructor Signature

Official Use Only
Date Received: _____

The most common ear-notching system is shown in *Figure 1*.

The right ear has five locations for notches, and each location is assigned a number. Those five numbers are 1, 3, 81, 9, or 27. Look at *Figure 1* to find each notch location. Except for the 81 notch, one or two notches may be at each of the other four locations.

RIGHT EAR
Litter number

LEFT EAR
Pig number

Figure 1. Universal ear notching system

To determine the litter number for a pig, add the numerical values assigned to each notch, as shown in *Figure 2*.

$$\text{Litter No.} = 1 + 1 + 81 + 9 = 92$$

$$\text{Litter No.} = 1 + 3 + 3 + 27 = 34$$

Figure 2. Examples for litter numbers 92 and 34.

The left ear has three locations for notches, and each location is assigned a number. Those three numbers are 1, 3 and 9. Look at *Figure 1* to find each notch location. As with litter numbers, the number values are added. (*Figure 3*).

The litter number is notched in the pig's right ear and the individual pig number in the pig's left ear.

$$\text{Pig No.} = 1 + 1 + 3 + 9 = 14$$

$$\text{Pig No.} = 1 + 3 + 3 = 7$$

Figure 3. Examples for pig numbers 14 and 7.

Combining Both Ears

After a pig is notched in its right and left ear, it has a unique identity. Examples are shown in *Figure 4*.

$$\text{Litter No. } 1 + 1 + 9 + 27 = 38 \text{ (pig's right ear)}$$

$$\text{Pig No. } 1 + 3 = 4 \text{ (pig's left ear)}$$

$$\text{Litter No. } 3 + 3 + 81 = 87$$

$$\text{Pig No. } 3 + 9 = 12$$

This pig's identity is 87-12.

This pig's identity is 38-4.

Figure 4. Examples of properly notched pigs.
